

Keeping your privacy, private

OUR PLAIN ENGLISH PRIVACY UNDERTAKINGS

1. Yes we do collect and store your contact details safely in a fully encrypted format on a fire-walled server (it's safe from others) for our marketing purposes... to remind you of the great experience you had gliding over pristine waters on our hi-tech eco Fliteboards in the hope you will return with friends and family in the future.

2. No we won't hassle you constantly. We may send you an occasional email with a special holiday offer or a referral deal for a friend. But it won't be every month. We are a small, privately-run Aussie business, we don't have the time to hassle our valued clients, and we were brought up with good manners too. Your mention of good times experienced with us to others matters greatly.

3. We do not share your contact details with our bank, or the tax office, or any other organisation, or sell your details to other marketers, call centres or media in Australia or anywhere else.

4. If you don't want to be part of our valued & respected client database we will take you off it. It's entirely your call. We get that. Simply drop us and email via the website asking not to be on the database and your gone. We do hope to see you again "going with the flow". Life is too short.
